| Sunday    | Misal with sprouts and whole-grain bread                 | Dal dhokli and small salad                        | Spinach-banana-almond milk smoothie | Tofu stir-fry with capsicum, quinoa                       |

### Note:

1. Hydration: Drink plenty of water and include herbal teas like chamomile or spearmint.
2. Avoid: Refined sugars, processed snacks, and excessive caffeine.
3. Include: Anti-inflammatory spices like turmeric and fenugreek, and incorporate healthy fats from nuts and seeds.
4. Customizable: Adjust portion sizes and meals based on personal caloric needs.
